About RISC-V Now! by Andes

RISC-V Now! by Andes is the conference focused on **turning RISC-V standards into products that ship — where spec goes to scale.**

It brings together customers, ecosystem partners, and teams evaluating RISC-V for silicon, software, and system integration to share real-world experience deploying RISC-V at **commercial scale.**

From AI and automotive to datacenter and IoT, RISC-V Now! goes beyond standards discussions to address the **realities of execution:** architecture decisions, software enablement, system integration, and business outcomes.

Whether you're a **silicon architect, software architect, or CXO**, RISC-V Now! delivers practical insight, hard-earned lessons, and actionable perspective on building successful RISC-V products.

RISC-V Now! — Where commercial RISC-V happens.

The Logo

The separated yet interlocked R and V represent RISC-V's openness and the tightly integrated ecosystem that makes it complete. They flow into an open circle symbolizing both the flywheel of innovation and the sunrise of RISC-V's commercial era.

RISC-V Now!
by Andes

Explore commercial RISC-V deployment across industries

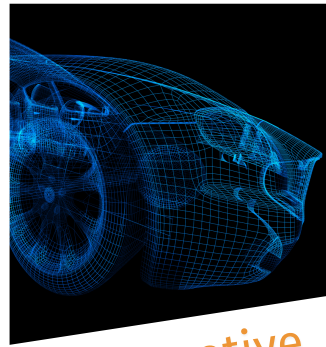

As a global leader in 32/64-bit RISC-V processor IP and a Founding and Premier member of RISC-V International, **Andes Technology** is accelerating advancements across the four core pillars shaping tomorrow's intelligent systems:

AI

Application Processing

Automotive

Security

Through **RISC-V Now!**, Andes acts as a convenor — bringing together the broader ecosystem to share real-world deployment experience and commercial lessons learned.

In 2026, Andes will bring the global RISC-V community together through a four-city event series across **Hsinchu, Silicon Valley, Shanghai, and Beijing**—showcasing the latest breakthroughs, ecosystem innovations, and real-world deployments across industries.

Why Sponsor

Sponsoring the **2026 RISC-V NOW! by Andes** puts your brand at the center of the fast-growing global RISC-V ecosystem.

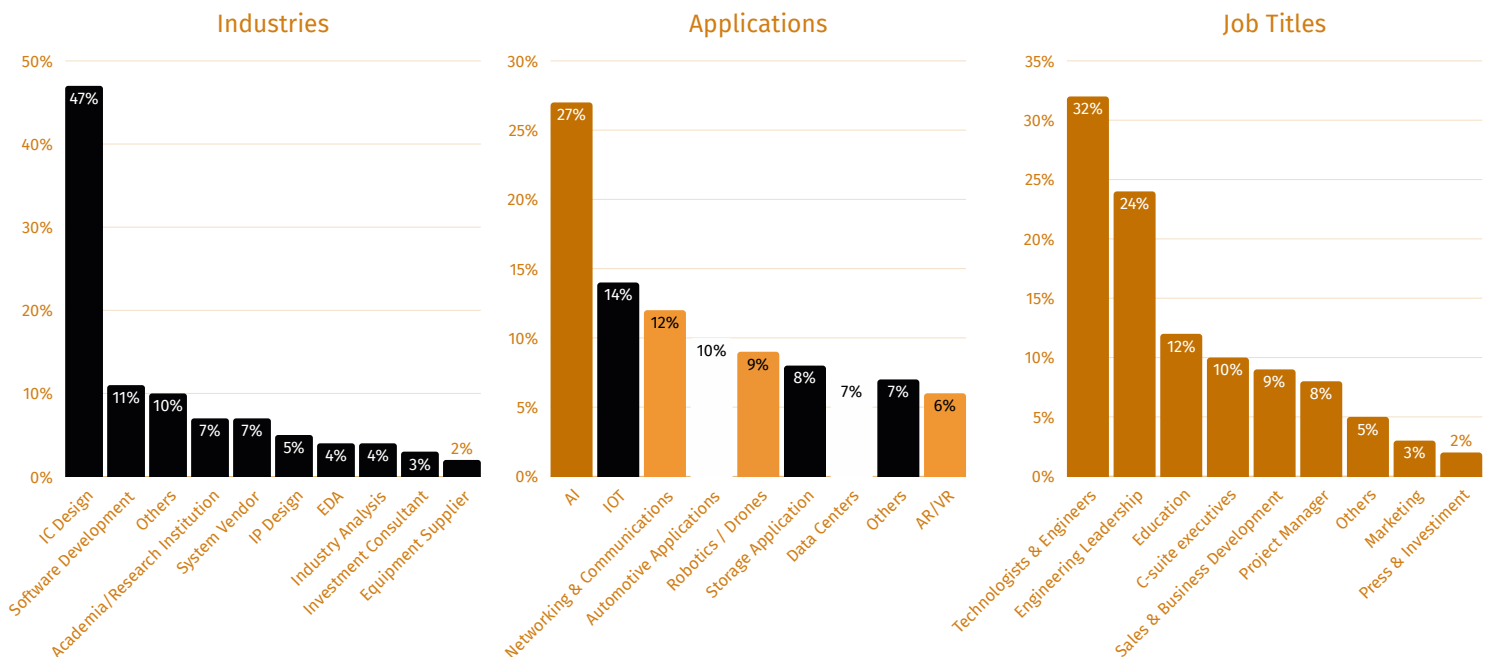

Key Advantages

- Direct access to high-value engineering audiences
- Visibility across four major technology hubs
- Brand exposure among decision-makers in AI, HPC, automotive, and security
- Cross-region networking covering Taiwan, North America, and China

Audience Profile

Our audience is your next customer, partner, and collaborator. The **RISC-V NOW! by Andes** draws a uniquely high-value crowd—engineers, architects, project managers, product marketing, and C-level leaders who shape the future of compute.

Nearly 60% of participants are hands-on technologists or engineering leadership, while applications such as AI, Automotive, Communications, Datacenters, IoT, Robotics, and Storage collectively form the core of the RISC-V adoption wave.

This is where decision-makers explore new solutions, evaluate next-generation platforms, and engage directly with ecosystem innovators—making it the ideal stage for sponsors seeking maximum impact.

Previous Speakers & Sponsors

From startups to major global corporations, some of the world's most innovative and successful companies sponsor our shows.
